The 3-row Subaru Ascent. Love is now bigger than ever.™
When you’re ready for life’s next big adventure, the 2021 Ascent™ is ready to take you to new heights. It’s the largest and most versatile Subaru ever, with three rows and seating for up to eight.¹ It’s packed with advanced technologies, from active safety systems to entertainment features. Thanks to legendary Subaru quality, durability and reliability, you can drive with confidence.

The Ascent is designed to give you peace of mind when you’re behind the wheel. It features standard Subaru Symmetrical All-Wheel Drive while delivering up to 27 highway MPG,² and it can tow up to 5,000 lbs.³ With 8.7 inches of ground clearance and standard X-MODE⁴ with Hill Descent Control, you can reach even more destinations.

We know how much safety means to you, and that’s why EyeSight® Driver Assist Technology⁵ and LED Steering Responsive Headlights come standard on every Ascent. A Smart Rear-View Mirror and 180-Degree Front View Monitor are available to enhance your vision,⁶ while Blind-Spot Detection and Rear Cross-Traffic Alert⁷ help make you even more aware of your surroundings. Plus, SUBARU STARLINK® Safety and Security with Advanced Automatic Collision Notification is available and can send help when you need it most.⁸

Wherever you’re sitting in the Ascent, you can stay connected—with up to eight USB ports,⁹ you always have a place to plug in. SUBARU STARLINK® Multimedia with standard Apple CarPlay® and Android Auto®¹⁰ integration lets you easily access all your favorite music and apps via a 6.5- or 8-inch touchscreen.¹¹ You can even use your phone to start the Ascent and set the perfect temperature, thanks to Remote Engine Start with Climate Control.¹²

Our rigid Subaru Global Platform helps give the Ascent long-lasting durability, thanks to its high-strength steel construction. And because 97% of Subaru vehicles sold in the last 10 years are still on the road today,¹³ you can be confident that your Ascent is more than ready for the long road ahead.

¹ Availability varies by trim level. See your retailer for details. ² EPA-estimated highway fuel economy for Ascent and Ascent Premium trim levels with standard equipment at 27 highway mpg. Actual mileage may vary. See your retailer for details. ³ Maximum towing capacity varies by trim level. Trailer brakes may be needed. Some safety features, including Blind-Spot Detection, Rear Cross-Traffic Alert, Smart Rear-View Mirror, and X-MODE® may not function properly during towing. See Owner’s Manual for details. ⁴ EyeSight® is a driver assist technology, which may not operate optimally under all driving conditions. System effectiveness depends on many factors such as vehicle maintenance, weather and road conditions. See Owner’s Manual for complete details on system operation and limitations. ⁵ Blind-Spot Detection, Lane Change Assist and Rear Cross-Traffic Alert are systems designed to assist the driver by monitoring the rear and side areas of the vehicle during a lane change or reversing and are not a substitute for safe and attentive driving. System activation with subscription required. Includes a 3-year trial subscription to Safety Plus services and a 6-month trial subscription to Safety and Security Plus services. The Concierge plan can be purchased annually or monthly. A credit card on file will be required for specific packages and for renewal purposes. ⁶ Activation with subscription required. Includes 3-year trial subscription to Safety Plus services and a 6-month free trial included. A credit card on file will be required for specific packages and for renewal purposes. ⁷ Accessory equipment required. See your retailer for details. ⁸ Requires Keyless Access with Push-Button Start and subscription to STARLINK® Safety and Security Plus services. Services are available for select models. See your retailer for details. ⁹ Based on Experian Automotive vehicles in operation vs. total new registrations for Model Years 2010–2019 as of December 2019.
Fits a lifetime of memories.

Three rows. Seats 7 or 8.

With up to 153.5 cubic feet of passenger space\(^1\) and a multitude of seating options, the three-row Ascent welcomes everyone. Available second-row captain’s chairs\(^2\) provide easy access to the third row while seating up to seven. Or you can select the second-row bench to seat up to eight. No matter the configuration, the inside of the Ascent is where the journeys—and the great stories—begin.

Ascent Limited with Warm Ivory Leather and optional equipment.
The largest, most versatile Subaru ever.

The Ascent is designed to adapt to the size and shape of your journey, whether it’s an everyday errand or a special weekend outing. Its two rows of 60/40-split flat-folding seats allow for a wide range of cargo and seating configurations. There’s also up to 86.5 cubic feet of cargo space, plus under-floor storage, if you need it. And thoughtful details like a Power Rear Gate with lock button, standard raised roof rails and 19 cup and bottle holders mean the Ascent can take on whatever your day demands.

1 86.0 cubic feet with available panoramic power moonroof. 2 Availability varies by trim level. See your retailer for details.
Vast comfort.
Pre-Collision Braking
A driver ahead unexpectedly hits the brakes or cuts you off. EyeSight® warns you, applies brakes to help avoid impact and, at lower speeds, can even help you stop your Ascent.

Advanced Adaptive Cruise Control with Lane Centering
Automatically helps keep you centered in your lane, at a safe distance behind the car in front of you—even in traffic and around curves.

Lane Departure and Sway Warning
You accidentally drift to the edge of your lane and begin to cross into another. EyeSight® watches for lane markers and can alert you with visual and audible warnings before you leave your lane. And when activated, Lane Keep Assist can even help steer you back into your proper course.

Pre-Collision Throttle Management
This system reduces power to your engine to help you avoid accidentally accelerating into the car in front of you while merging or if you unintentionally put your Ascent in Drive instead of Reverse.

EyeSight® is a driver assist technology, which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving. System effectiveness depends on many factors such as vehicle maintenance, weather and road conditions. See Owner’s Manual for complete details on system operations and limitations.

EyeSight® reduces rear-end crashes with injuries by 85%.

With Steering Responsive Headlights.

A 2020 IIHS Top Safety Pick with Steering Responsive Headlights.
Availability varies by trim level. See your retailer for details.

Blind-Spot Detection, Lane Change Assist and Rear Cross-Traffic Alert are systems designed to assist the driver by monitoring the rear and side areas of the vehicle during a lane change or reversing and are not a substitute for safe and attentive driving.

The Reverse Automatic Braking System is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as vehicle maintenance, weather and road conditions. Always exercise caution and use vehicle mirrors and the Rear-Vision Camera when backing up. See Owner’s Manual for complete details on system operation and limitations.

Activation with subscription required. Includes a 3-year trial subscription to Safety Plus services and a 6-month trial subscription to Safety and Security Plus services. The Concierge plan can be purchased annually or monthly. A credit card on file will be required for specific packages and for renewal purposes. See your retailer for details.

The road may waver, but not your priorities.

Safety that meets the highest expectations.

We know what’s most important to you when you drive, and that’s why safety is at the top of our minds, too. The Ascent is assembled in the U.S.A. and built on the resilient Subaru Global Platform with some of the most advanced active safety systems on the market. A Smart Rear-View Mirror and 180-Degree Front View Monitor enhance visibility. And standard LED Steering Responsive Headlights with High Beam Assist help make nighttime driving even safer.

Ascent Touring in Abyss Blue Pearl with accessory equipment.

Blind-Spot Detection
Using radar sensors, Blind-Spot Detection warns you with a visual indicator on your side mirror if the system detects a vehicle in your blind spot. Another feature of this system, Lane Change Assist, alerts you with a flashing indicator on your side mirror if it senses a vehicle approaching at a higher speed in a neighboring lane and you signal for a lane change.

Rear Cross-Traffic Alert
Rear Cross-Traffic Alert uses radar sensors to help warn you of traffic approaching from the side as you are backing up, utilizing a flashing visual indicator on your side mirror and Rear-Vision Camera display as well as an audible warning.

Reverse Automatic Braking
Reverse Automatic Braking can detect objects directly behind your vehicle when backing up at a low speed and can help bring the Ascent to a stop if it detects an object within its range and the brakes have yet to be applied. There’s also the Rear-Vision Camera to help you keep an eye out.

SUBARU STARLINK® Safety and Security
The Ascent features the latest STARLINK® Safety and Security system, which can alert a first responder in an emergency, help police locate your vehicle if it’s stolen and more. And to get you started, new Ascent drivers enjoy a free three-year STARLINK® Safety Plus subscription, which includes Advanced Automatic Collision Notification, Enhanced Roadside Assistance, SOS Emergency Assistance and more.
“Are we there yet?” said no one.

Every journey in the Ascent is the perfect combination of high tech and low stress. At 54 inches, the available panoramic moonroof is the largest ever offered on a Subaru, bathing the cabin in soothing, natural light. There are three separate climate control zones, including air vents in each row. Plus, heated and ventilated front seats, second-row heated seats, and rear-seat climate controls are all available for easily customizable comfort.

The latest STARLINK® Safety and Security system includes the added convenience of Remote Engine Start with Climate Control. Accessible via your smartphone, it can help ensure your Ascent is ready and comfortable. And with available STARLINK® Concierge Services, you can search for points of interest, make reservations and even find event tickets—all on the go.

More ways to bring passengers together.

Family time is quality time, and the Ascent helps make it exceptional. STARLINK® Multimedia with standard Apple CarPlay® and Android Auto™ integration connects you to all your music and apps through a 6.5- or 8-inch touchscreen. Thanks to built-in Wi-Fi capability and up to eight USB ports throughout the cabin, it’s easy for passengers to stream their favorite content and keep all of their devices charged and connected. The available TomTom®-powered navigation system with three years of free map upgrades keeps you on the right path.¹ And the available Harman Kardon® 792-watt-equivalent, 14-speaker premium audio system offers a crisp, authentic listening experience.¹

1 Availability varies by trim level. See your retailer for details. ² Internet access is purchased separately through AT&T with monthly, per gigabyte, and unlimited data options available. Existing AT&T customers have the option to add a line to their AT&T Mobile Share plan. ³ Accessory equipment required. See your retailer for details. ⁴ A 3-year trial subscription to STARLINK Safety Plus and a 6-month trial of STARLINK Security Plus will be offered on New and Certified Pre-Owned vehicles during the introductory period. STARLINK plans can be purchased with annual or monthly terms, and a credit card is required to be kept on file for specific packages and renewal purposes. See your retailer for details. ⁵ Requires Keyless Access with Push-Button Start. See your retailer for details.

8-inch Touchscreen

8-inch Touchscreen
Memories are made on outings like these, and the Ascent is engineered to get you there. It features standard Subaru Symmetrical All-Wheel Drive and a direct-injection turbocharged SUBARU BOXER® engine that gets up to 27 highway MPG and delivers 260 hp and 277 lb-ft of torque. The Ascent can tow up to 5,000 lbs., boasts 8.7 inches of ground clearance, and offers standard X-MODE® with Hill Descent Control. That dream trip is now more real than ever.

Ascent Limited in Crystal White Pearl with optional and accessory equipment.
### Ascent

- **260-hp Direct-Injection Turbocharged SUBARU BOXER® engine**
- SubaruEyeSight® Driver Assist Technology®
- Subaru Symmetrical All-Wheel Drive with Active Torque Vectoring™
- Lineworks® CVT (Continuously Variable Transmission)
- High Torque with 8-speed manual-mode paddle shifters
- X-ADD® featuring Hill Descent Control
- 18-inch aluminum-alloy wheels with silver finish
- LED Steering Responsive Headlights with High Beam Assist
- Recessed roof rails
- Second-row bench seat (3 passengers)

### Ascent Premium

Includes Ascent key features and adds:
- 26-inch touring-capacity wheels
- 18-inch aluminum-alloy wheels in gray with machine finish
- Body-color exterior mirrors
- Privacy glass
- 8-way power-adjustable driver seat
- Split-resistant cloth upholstery
- Leather-trimmed steering wheel and shift lever handle
- Second-row climate controls
- 4G LTE Wi-Fi capability

### Ascent Limited

Includes Ascent Premium key features and adds:
- 20-inch aluminum-alloy wheels in dark gray with machine finish
- LED fog lights
- Body-color exterior mirrors with integrated turn signals
- Lower door cladding with chrome accents
- Power Rear Gate with vehicle lock button
- Leather-trimmed upholstery
- Second-row captain’s chairs or bench seat

### Ascent Touring

Includes Ascent Limited key features and adds:
- Panoramic power moonroof
- Automatic power-folding exterior mirrors with satin chrome
- Chrome door handles
- Gloss black grille
- Java Brown or Slate Black leather-trimmed upholstery
- Second-row captain’s chairs (7 passengers)
- Upgraded leather steering wheel
- 3-mode ventilated front seats

### Ascent

- **260-hp Direct-Injection Turbocharged SUBARU BOXER® engine**
- SubaruEyeSight® Driver Assist Technology®
- Subaru Symmetrical All-Wheel Drive with Active Torque Vectoring™
- Lineworks® CVT (Continuously Variable Transmission)
- High Torque with 8-speed manual-mode paddle shifters
- X-ADD® featuring Hill Descent Control
- 18-inch aluminum-alloy wheels with silver finish
- LED Steering Responsive Headlights with High Beam Assist
- Recessed roof rails
- Second-row bench seat (3 passengers)

### Ascent Limited

Includes Ascent key features and adds:
- 26-inch touring-capacity wheels
- 18-inch aluminum-alloy wheels in gray with machine finish
- Body-color exterior mirrors

Traction and Stability

All-Wheel Drive type
Subaru Symmetrical All-Wheel Drive

X-MODE®
X-MODE® optimizes engine output and transmission ratio, increases all-wheel drive system engagement and uses enhanced control of the VDC system to reduce individual wheelspin, providing optimal traction on low-friction surfaces.

Hill Descent Control (HDC)
X-MODE® also incorporates Hill Descent Control that helps to maintain a constant vehicle speed when traveling downhill, enhancing vehicle control.

Vehicle Dynamics Control (VDC)
VDC electronic stability control utilizes sensors that constantly monitor wheel speeds, steering angle, brake pressure, vehicle yaw rate and lateral g-forces. If VDC detects a difference between the driver’s intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.

Active Torque Vectoring
Active Torque Vectoring works in tandem with VDC to apply braking power to the inside wheels, resulting in better handling, sharper turn-in, more neutral steering and higher cornering limits when turning.

Traction Control System (TCS)
VDC also incorporates an all-wheel, all-speed Traction Control System, which senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain traction.

Trailer Stability Assist (TSA)
Trailer Stability Assist senses any unsafe yaw conditions and automatically applies braking to prevent trailer instability.

Auto Vehicle Hold (AVH)
AVH helps to reduce driver fatigue by holding the vehicle in place when the vehicle is stopped, after the brake pedal has been released. Utilizing VDC and the Electronic Parking Brake, AVH can hold the vehicle motion.

More Than a Car Company

Subaru is the only automaker who has been named America’s Most Trusted Car Brand in the American Customer Satisfaction Index (ACSI) for the last 13 years. A leading family brand, Subaru has been named the world’s #1 family brand in the KPMG Global Automotive Surveys for years and years. What’s more, keeping cars on the road means they’re staying out of landfills. That’s why we’re committed to offering the highest standards of manufacturing, respect to all people at every interaction with Subaru. Together with our retailers, we are dedicated to making the world a better place.
