How to set up wireless Apple CarPlay (Using Bluetooth)

5. Select your vehicle from the device list

6. Verify your iOS/Apple device PIN is correct and select “Pair”

7. Select Allow for contacts and favorites to sync from your iPhone, and select “Sync” if the “Sync Contacts” pop-up appears on your vehicle touch screen display

How to set up wireless Apple CarPlay (Using Bluetooth)

8. Select “Use Carplay” on your iPhone

9. Select Yes on the “Apple CarPlay” pop-up on your vehicle touch screen display.

NOTE: If you do not wish to activate Apple CarPlay, select Later. Only Bluetooth® will be set up. You can still activate CarPlay later by selecting the Manage Devices icon on the home screen. Be sure to wait for this prompt to appear on your vehicle touchscreen before changing gear positions

10. Select Set on the Device Registration pop-up to set your iPhone to be the favorite device that will connect first when your vehicle is started

11. CarPlay will appear on the vehicle touchscreen. If not, select the Home button, and then select the Apple CarPlay button

Best practices and fixes for Wireless Apple CarPlay

- Ensure your iPhone is fully up to date.
- Ensure all other apps that work on Apple CarPlay are up to date (for example, Pandora, Apple Maps, Spotify, and others). Apple CarPlay might not function correctly if one of these apps is outdated or having an issue. Apps can be updated in the App Store app.
- Visit the Apple CarPlay website for the latest info, FAQs and device compatibility:
<https://www.apple.com/ios/carplay/>

If CarPlay does not launch the first time, complete the following steps:

1. Confirm CarPlay is enabled by going to: Settings > Screen Time > Content and Privacy Restrictions.
2. If “Content and Privacy Restrictions” are enabled, the slider will be green. This means there might be apps like CarPlay disabled. If so...
3. Select ALLOWED APPS
4. Ensure CarPlay is enabled. If slider is green, CarPlay is allowed.

How to set up wireless Apple CarPlay (Using Bluetooth)

If CarPlay does not launch after the above steps, try the following:

1. Go to the Settings on your iPhone and select Bluetooth®.
2. Select the blue “i” next to your vehicle.
3. Select Forget This Device.

4. Return to Settings and now select General.
5. Select CarPlay.

6. If your vehicle is shown, select it, and then select Forget This Car.

7. On your vehicle touch screen display, select the Manage Devices icon.
8. Select Delete, and then select your iPhone to delete it from the system.
9. Start the pairing process over, or plug your iPhone into the USB port to try the process via USB connection.
