Stability and Traction

Subaru Symmetrical All-Wheel Drive

Standard	Standard	Standard	Standard	Standard

X-MODE®

ⓘ X-MODE® optimizes engine output and transmission ratio, increases all-wheel drive system engagement, and uses enhanced control of the VDC system to reduce individual wheelspin, providing optimal traction on low-friction surfaces. Sport, Limited, and Wilderness models include dual-function X-MODE with Deep Snow/Mud setting.

Standard	Standard	Standard	Standard	Standard

Hill Descent Control (HDC)

ⓘ X-MODE® also incorporates Hill Descent Control (HDC), which helps to maintain a constant vehicle speed when traveling downhill, enhancing vehicle control.

Standard	Standard	Standard	Standard	Standard

Vehicle Dynamics Control (VDC)

ⓘ Standard VDC electronic stability control utilizes sensors that constantly monitor wheel speeds, steering angle, brake pressure, vehicle yaw rate, and lateral G-forces. If VDC detects a difference between the driver's intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.

Standard	Standard	Standard	Standard	Standard

Traction Control System (TCS)

ⓘ VDC also incorporates an all-wheel, all-speed traction control system that senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion.

Standard	Standard	Standard	Standard	Standard

Active Torque Vectoring

ⓘ Active Torque Vectoring works in tandem with VDC by applying braking power to the inside front wheel, resulting in better handling, sharper turn-in, more neutral steering, and higher cornering limits while turning.

Standard	Standard	Standard	Standard	Standard

Auto Vehicle Hold (AVH)

ⓘ AVH helps to reduce driver fatigue by holding the vehicle in place when the vehicle is stopped after the brake pedal has been released. Utilizing the Vehicle Dynamics Control system and the Electronic Parking Brake, AVH can hold the vehicle stationary on level, decline, or incline surfaces.
