----------	----------	----------	----------	----------	----------

**X-MODE<sup>®</sup>**

① X-MODE optimizes engine output and transmission ratio, increases all-wheel drive system engagement, and uses enhanced control of the VDC system to reduce individual wheelspin, providing optimal traction on low-friction surfaces. Sport, Wilderness, Limited, and Touring models include dual-function X-MODE with Deep Snow / Mud setting. Wilderness models also include Low Speed / Low Ratio Gradient Control.

Not Available	Standard	Standard	Standard	Standard	Standard
---------------	----------	----------	----------	----------	----------

**Hill Descent Control**

① X-MODE also incorporates Hill Descent Control (HDC), which helps to maintain a constant vehicle speed when traveling downhill, enhancing vehicle control.

Not Available	Standard	Standard	Standard	Standard	Standard
---------------	----------	----------	----------	----------	----------

**Vehicle Dynamics Control (VDC)**

① VDC electronic stability control utilizes sensors that constantly monitor wheel speeds, steering angle, brake pressure, vehicle yaw rate, and lateral g-forces. If VDC detects a difference between the driver's intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.

Standard	Standard	Standard	Standard	Standard	Standard
----------	----------	----------	----------	----------	----------

**Traction Control System (TCS)**

① VDC also incorporates an all-wheel, all-speed traction control system that senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion.

Standard	Standard	Standard	Standard	Standard	Standard
----------	----------	----------	----------	----------	----------

**Active Torque Vectoring**

① Active Torque Vectoring works in tandem with VDC, applying braking power to the inside front wheel, resulting in sharper turn-in, more neutral steering, and higher cornering limits while turning.

Standard	Standard	Standard	Standard	Standard	Standard
----------	----------	----------	----------	----------	----------

Trailer Stability Assist (TSA)					
① Trailer Stability Assist senses any unsafe yaw conditions and automatically applies braking to specific wheels to help the driver maintain vehicle control.
